

UPDATED OLCUOA Paint Specs

In 2008, Porter Paint reformulated their entire line of paints. **The paint codes in red, below, are no longer valid.**

Naturally, PPG/Porter does not have or provide any kind of cross-reference, so a liquid or painted sample will be required to match the original Erpenbeck colors, except for Exterior Trim & Garage Door. How lame is that?

If you get new paint(s), please email the new paint code(s) to [Bob Schnittger](mailto:Bob.Schnittger) so this page can be updated further.

Interior:

Wall - Flat 6059 Soft antique white 6914-1
